Charity of the month

National Trust

The National trust was founded in 1895 by three people who saw the importance of our nation's heritage and open spaces and wanted to preserve them for everyone to enjoy. More than 120 years later, the charity is still taking care of these special places. The national trust looks after coastline, forests, woods, fens, beaches, farmland, moorland, islands, archaeological remains, nature reserves, villages, historic houses, gardens, mills and pubs and one of the world's largest art collections. The trusts, restores, protects and educates. The lady's walk connects to the Exe estuary cycle trail which borders National trust park land and we work together with the National trust to preserve the land and encourage nature into our own park land including the rejuvenation of our ponds.

For more information about the charity, please ask a member of the team.

Please note a discretionary service charge of 15% will be added to your final bill.
